A full review has been carried out on the existing Management Systems and Operational Controls. The review identified that there is an experienced Team in place who will maintain all required systems and operational controls as required. Evidence was seen of the Management Systems and Operational Controls that are used (evidence held on file). Reviews will be carried on the anniversary date of the first discipline obtained (PMEH, PMTH or SPCP) for established Companies and after the first year for new Companies.

It must also be stated to remain Accredited / Registered all relevant requirements as detailed within the protocols must be adhered to including SCL issues (see Companion Conditions). Any failures may lead to removal from the Compliance and Licensing SCL Database.
