### WHAT IS A COOKIE?

A "cookie" is a small text file that is stored by the browser (for example Internet Explorer, Google Chrome or Safari) on your computer or mobile phone. They allow websites to store things like user preferences. You could think of cookies as providing a 'memory' for the website, so that it can recognise you when you come back and respond appropriately. Cookies can also be used to analyse traffic and for advertising and marketing purposes.

Cookies are used by nearly all websites and do not harm your system.
